EDITORIAL NOTES.

The San Francisco Post says: Frank M. Page will be re-elected for the Second Congressional District. It would be an act of unparalleled ingratitude for the constituency to go back upon Mr. Page, after the loyal service he has done it. They will not be thus gullible.

The Truckee Republican mournfully remarks:

Meadow Lake Courts need a number of reforms, but none more than some place besides a saloon to hold Court—especially when ladies are compelled to be in attendance.

We should say so.

It is the duty of every man who loves his country, and who desires to see our Government economically and creditably administered, to attend the primaries and interest himself in the politics of his country and State.

A large sign hung out at No. 632 Commercial street says "Democratic Naturalization Rooms." This sounds better, than if it read "perjurers and voters bought and sold."

It is said that Congressman Cassidy is so certain of a re-election that he is not coming here to make any fight. Well, that might work, and then again it might not.

The statement that Bismarck instructed the German Ambassador at Paris to express his regret to De Freycinet at the latter's overthrow is officially denied.

The Government is issuing some very interesting reports. The man who turns up his nose at a pub. doc. is throwing away a good thing.

Sherman, Clay & Co. mail to the GAZETTE office a new daisy song called "De Daisy Crown." It is sold for 35 cents.

Bishop Whitaker says Eastern Nevada is very dull. He thinks there is hardly a town there that is not losing population.

A divergence of opinion is known to exist between Russia and England, which may complicate the Eastern question.

The Carson Appeal wants the nails driven down in the sidewalks. A better remedy is to keep sober.

Lithwick is proclaimed under the Repression Act, and any one out after sunset is liable to arrest.

The Western Window Glass Manufacturers are in session at Pittsburg. A strike is likely to follow.

President Arthur, it is expected, will make a trip west in September to Illinois and Wisconsin.

At Coney Island yesterday the race horse Major Hughes fell and broke his neck.

At the Buffalo races yesterday Little Brown Jug paced half a mile in 1:04.

Our very latest dispatch says a serious battle is going on in Egypt.

The Suicidal Man. THE NEWS SACRAMENTO, August 5.

Wm. Allen committed suicide yesterday by taking morphine.

PORTLAND, August 5.

Yesterday George Kingland, aged 42, walked to the top of Marquam's Hill, back of the city, and fired a pistol shot through his brain. Death was instantaneous. He clerked in Kohn's clothing store until two weeks ago when he was discharged on account of dissipation. A quarrel with Clara Belmont, an inmate of a house of ill-fame, of whom he had become enamored, induced suicide.

Who Gave It Away?

LONDON, August 5.

A confidential circular has been addressed to country inspectors throughout Ireland, requesting them to report whether any large number of persons from their districts are arranging to visit Dublin on the occasion of opening the exhibition and unveiling the O'Connell statue, or whether leading Land Leaguers or Fenian suspects are expected to be present.

EASTERN.

A Maine Issue.

NEW YORK, August 5.

The Times gives in advance a copy of a letter of Jas. G. Blaine to the Republicans of Maine. He says it was, in many respects, a great misfortune that the election following directly after the nefarious attempt to steal a State Government was one primarily, involving a national issue in the choice of President and Vice-President. I believe there were many honest Democrats and honest Greenbackers in the State who sincerely desired to record their disapprobation of that iniquitous proceeding, but found that to do so in 1880 involved a separation from their party in a national campaign. They felt that they could not afford to turn their backs on their honorable and gallant national standard bearer to punish the misdeeds of State officials at home. The time has now arrived, however, when no such embarrassment surrounds the plain question of duty and it so happens by the perverse designs of those who sought to impose a fraudulent Government on Maine that the issue of that evil conspiracy is thrust upon the people in the pending election whether they be willing or unwilling. Every intelligent man in the State recollects that thirty-seven members of the Legislature were fraudulently counted by Governor Garcelon and his Council and would have been deprived of the seats to which they were elected by the people and spurious members installed in their places, if it had not been for the interposition of a judicial opinion of the Supreme Court asked in a perfectly regular and constitutional manner, and an answer given by that tribunal destroyed the conspiracy against the rights of the people. The opinion of the court was so strong, and its discussion of elementary principles of a Republican Government so able and so comprehensive, that it secured the admiration of a much wider circle than those directly interested in its conclusion. In the pending election, therefore, the most important local question is that of sustaining an honest and independent judiciary. Second, are involved many questions of national importance. Questions which deeply affect the prosperity of the people of Maine. Whoever neglects to make his influence felt in the pending campaign disregards interests which pertain to his own future and his own fireside. The choice of four Representatives in Congress, and of a legislature that shall appoint a Senator of the United States, brings directly before the people every issue involved in the administration of the National Government. Upon every question upon which parties divide in this country, the interests of the people of Maine must lead them, after sober, second thought, to support the Republicans. By the spread of manufacturing industries and by the growth of agricultural interests the people of Maine became every year more and more interested in the maintenance of a protective tariff. No candid man believes that a protective tariff will be upheld for a single year if the opponents of the Republican party should come into power, and by so much as any voter in Maine helps to elevate free traders to power, by so much he aids to imperil the manufacturing and agricultural interest of the State. And not less so in the matter of ship building. Two out of every three candid free traders, outside of New England, will probably declare that if their party was in power they would at once proceed to admit foreign-built ships to American registry, and would break down what they term the odious monopoly of the coasting trade. Causes which need not here be enumerated have imposed a long list of hardships upon the navigation interests of this country, but the free trade party is the only one which has proposed to alleviate these hardships by the utter destruction of our navigation interests. A third point. The Legislature to be elected will have the appointment of a Senator of the United States. Every Republican knows in advance he is voting for Frye, and that nothing is to be left to chance or the uncertainty of caucus. It is worth the zealous effort of those who cherish Republican principles, to see that Maine's position in the Senate, now so honorable and so strong, shall not be impaired or imperiled by the result of the pending election. Our prospects are so promising and the surroundings of the party in Maine are so auspicious that we all have heart and courage for work in the campaign. Discussions that distract Republicans elsewhere, are unknown among us, and it may be our happy fortune by unity and victory to set an example to the Republican party of the whole country and thus induce that harmony and co-operation which is indispensable to success.

Southern Sorrows.

JACKSONVILLE, Fla., August 5.

At Spring Garden W. H. Neff and wife were killed and shockingly mutilated and the house robbed and fired.

GALVESTON, Texas, August 5.

The quarantine officer reports the arrival of the schooner Henrietta, from Brazos, and two suspicious cases aboard. The vessel was ordered quarantined. Quarantine is declared against Matamoras, Brownsville, Brazos and San Antonio.

GRANADA, Miss., August 5.

Captain Thos. Kirman, a wealthy planter, went last night to the quarters of a colored woman with whom he had been intermingling for some years, and brained her four children with an ax and then took morphine and lay down in the same room. At last accounts he is still alive, but no hope of his recovery. It is said he was father of three of the children.

WACO, Texas, August 5.

The storm in the west part of the county last night did much damage to farm property, blowing down fences and buildings. Planter Moses Oldham, in the southern part of Lenon county, was killed by lightning.

LAREDO, Texas, August 5.

The prevailing fever at Matamoras is reported increasing. Seven deaths occurred to-day. There is no exact account of the total number of cases, but between 300 and 400 are reported. The disease prevails among the higher classes as well as among the lower. There have been a number of deaths among farmers. Many stores are only open part of the day, which gives the city a very desolate appearance. Last night Mariana Flores, a Mexican druggist, the first case of fever in Brownsville, died. He was taken in a cart to the graveyard and buried this morning. A case in the garriosa at Fort Brown died this morning. His name was Bosting, and belonged to the 19th U. S. Infantry band. Physicians say the case was not yellow fever, but a pernicious type of congestive hemorrhagic malarial fever. There is now reported in all 20 cases of fever in Brownsville, and all doing well.

A man named Chamberlain is sick at King's ranch, 140 miles from Laredo, with a bad fever. The American mail carrier from there says he has black vomit. Doctors have been sent from Corpus Christi to examine the case.

The Mayor of Laredo is to take active measures to-morrow toward a strict quarantine against infected places and an attempt will be made to induce Nueva Laredo to do the same, that communication between the two places may not be interrupted.

Texas and Mexico railroad officials say if the fever gets to Corpus Christi they will stop running all trains.

Everything is quiet at Rio Grande city. A strict quarantine is to be preserved till all danger is over. Citizens of San Diego have held a meeting and telegraphed the Governor protesting against the contemplated removal of troops from Brownsville to the old post at that place.

A Female Fagin.

CHICAGO, August 5.

The Reading family, consisting of a mother and two daughters and three adopted girls, all of tender years, who were recently arrested for shop lifting, have turned out to be the nucleus of a very bad crowd who, through their confessions, have been unearthed and appear to have stolen extensively from all over the city. Mrs. Reading is a depraved specimen of the female Fagin, who was rapidly becoming rich from the pilferings of her brood.

John Brown's Friends.

CHICAGO, August 5.

It is proposed on the 23d of August to have a celebration here to raise funds for a monument to John Brown. Mrs. Brown will be there, also General Logan, Congressman Aldrich, Cox, Doolittle and Fred Douglas. It is intended to hold similar ceremonies in all the great cities.

Adjournment Delayed.

WASHINGTON, August 5.

The President has signed the Legislative Appropriation bill. It is understood a Republican Senatorial caucus to-day decided almost unanimously to press the tax bill to a veto, and if possible get a vote without amendment on the bait goods bill. This will delay adjournment indefinitely.

Railroad Magnates in Consultation.

CHICAGO, August 5.

Private advices from Boston say the conference between the officers of the Burlington, Atchafson and Union Pacific roads adjourned without reaching an agreement, but will meet next week. It is believed here they will agree on a compromise allowing all three companies to occupy certain territory in Nebraska, Kansas and Colorado with new lines.

He Can But He Won't.

WASHINGTON, August 5.

The Conference Committee on the Naval Appropriation bill has agreed to only the clauses in controversy, which were in regard to closing navy yards. The Senate conferees receded

from their disagreement. As agreed upon the bill leaves the closing of navy yards to the discretion of the Secretary of the Navy.

ALEXANDRIA.

The Health of the Army—Arabi's Last Ditch—A Fight Now Going On.

ALEXANDRIA, August 5.

In a reconnaissance Thursday, breastworks were found finished at a point on the Mahmoud canal already occupied by the British pickets. It is clear that Arabi Pasha means to remain on the defensive. His real resistance will begin at Lanes, at Kafir el Dwar. We could have skirmishes every day if General Allison allowed the English to amuse themselves. He has forbidden more potting of Arabs who appear within range.

The health of the troops is excellent only one and a half per cent. being sick. Affairs at Port Said are quiet. On Tuesday 2350,000 for the Serbia debt was collected in the provinces, in obedience to an order of Arabi Pasha.

A Bedouin sheik states that Arabi has about 20,000 Bedouins, who will be sent to various ports on the coast. The sheik also says Arabi is in communication with the false Prophet of Sander, and that when beaten he will not retire to Cairo, but to Wah el Dakhel. Adda, who has just arrived from Cairo, states there is a council of war every evening at the Ministry of War at Cairo. All sub-Ministers except the sub-Minister of Finance, are still at their posts. No European shops are opened.

ALEXANDRIA, Aug. 5, 6:35 P. M.

At 5 o'clock this afternoon the British troops, with a number of field guns seized by the sailors, attacked the advance guard of Arabi Pasha near Ramleh, between the Mahmoudieh canal and the Cairo railway, firing upon the enemy's position from three sides. The engagement, which is of a serious nature, still continues. Arabi sent 14 men with a flag to the British camp this morning. The party was received by Major Pringle, but the interview was without result.

Monday afternoon, while the Kelton and Wood River stage was passing through a canyon twenty miles from Kelton, it was stopped by masked robbers, who commanded the driver to halt. They ordered the passengers, eight in number, to get out and hold up their hands, when they were relieved of watches and money to the amount of \$2,000. The treasure box was also broken open and relieved of its contents, the amount of which cannot be learned. Two of the horses were then taken from the coach and two left for the driver. The victims were mostly from Leadville Col., and only one of them was armed.

WASCOE SWEETS.

Jim Sullivan, in addition to being an extensive rancher, is quite a bee raiser, withal. He has invented a novel way to bring bees to the surface when they light on his high shade trees, which is to prepare a sack with a hop in the top of it which, attached to a long pole, he holds close up under the bees—giving the limb a sudden jar, and they are captured and brought to terra firma. He made 100 large-sized honey boxes last winter, and the prospects of having them filled with the sweets of the land is very encouraging.

Justice Court.

Dick Dwyer, of Dwyer, Skiffie & Robinson, the San Francisco tobacco house, was arrested yesterday for a violation of the drummer law. He also had a suit in the Justice Court against T. N. Corey, of Wadsworth, for a cigar bill. Mr. Dwyer has jumped several Washoe county merchants lately.

FOR GOVERNOR.

A Prominent Cattle Man and Property Holder's Candidacy.

In response to the pressing demand of some of the leading Republicans of the State and many personal friends in the ranks of both parties, Alvaro Evans, of Reno, has concluded to allow his name to be used as a candidate for the Republican nomination for Governor. Mr. Evans is a very candid and outspoken man and, with his accustomed frankness, he makes a public announcement of his purpose. There are as many different ways to do things as there are different men. Mr. Evans' way is to come out openly and let the people of this State accept of his services if they consider it best. If otherwise, let the better man be the nominee. So far as representing the property and substantial interests of the State at large is concerned it is doubtful if one more closely identified with them could be found. All the energies of his manhood have been devoted to building her up. He has seen her rolling out a river of wealth, and again hardly able to sustain her own people. He has cattle, land, mines and other valuable property in different counties of the State. He is the typical Nevada. Energetic but cautious, confident but reserved, shrewd but charitable, he will draw in a large support from all who know him.

The Bee says: Four running horses from Eastern Nevada, Tommy Chandler among the number, arrived at the Carson track in Treadway's Park Wednesday morning, and will immediately go into training for the Carson and Reno races. Mr. Sweeney intends to put the track in first-class condition at once, having assurance that a large field of horses will train at that course.

Work to Begin at Once.

Materials have begun to arrive for the new shops at Wadsworth. The engineers are expected on Monday and work will commence at once. The grounds are all purchased and there is nothing in the way. It will not disturb the present town much as it will be but a short walk, and there are two good bridges over the river. It is fortunate that so large a property is not to be taken out of Washoe county as it will help pay the taxes.

Martyred Catholics.

The Virginia Chronicle says: The police have killed 229 unlicensed curs in this city up to the present time, and there have been 39 tags sold. There is still a good chance for more destruction, especially in the vicinity of the Julia mine, where every house seems to have at least six of the worst looking curs in the county.

It is asserted that the Grand Jury of Storey county have actually discovered that a county official stole the glass ball formerly on the flagstaff on Mt. Davidson, and that another county official is one of the Pollock murderers. So says the Footlight.

Unpledged Delegates.

Says the Eureka Leader: "Kinkaid may secure a number of Eureka delegates, but not all by any means. The delegation from this county will be chosen without regard to their preferences for Governor, or, in fact, any other position."

THE PRICE OF BEEF.

What the Government Statisticians Say About Them.

The GAZETTE has given a great deal of attention to the cattle and beef trade, because it is Nevada's growing industry and seems likely to be her main stay. It has tried to show all the influences at work and has predicted that prices would be permanently higher than heretofore. The monthly report of Hon. J. R. Dodge, Statistician of the Department of Agriculture, dated July 12th, states that a comparison of Chicago prices of beefs of different grades, for six years past, shows a constant decline from 1876 to 1879, amounting to 20 per cent, for choice beefs during this period. Then commenced a rise, which, in three years exceeded 40 per cent, the advance moving slowly in 1879 and 1880, but much more rapidly during 1881, the increase being fully \$1 per 100 of live weight during the year. But since the 1st of January, the advance has been extraordinary, if not unprecedented, the range being from \$5.85 to \$6.35 in January of 1882, and from \$6.35 to \$8.90 in June, or more than 45 per cent, advance upon the prices of six months ago.

The advance in the value of extra beefs in these six months has been almost 40 per cent, and nearly as much in the last month as in five months preceding. The record of prices on the 1st of January is as follows:

1876.....	\$5.25 to \$5.75
1877.....	5.00 to 5.50
1878.....	4.50 to 4.90
1879.....	4.10 to 4.35
1880.....	4.60 to 4.75
1881.....	4.85 to 5.40
1882.....	5.85 to 6.35

The upward movement of last year is only a prelude to the advance since January, as follows:

January.....	\$5.85 to \$6.35
February.....	5.85 to 6.10
March.....	5.90 to 6.35
April.....	6.70 to 7.00
May.....	7.30 to 7.50
June.....	8.65 to 8.90

In "butcher's stock" the range has been from \$2.75 to \$4.25 in January, and from \$3.50 to \$6 in June, the latter rate being a reduction from May prices.

What will the future of prices be? It is difficult to tell, but there seems reason to expect a still further advance for it does not appear where the cattle are to come from to supply the demand. At the East the outlook is portrayed by Mr. Dodge as follows: "It is clear that a season of abundant crops, and especially a good corn crop, would cause an immediate decline. If another short crop is gathered, prices will continue to be high. Already the effect is seen in reduced consumption, tending to increase of supply and reduction of rates. While prices cannot continue to increase, and cannot be permanently maintained under full harvests, it is probable that the low rates of a few years ago will not prevail, if ever. The general tendency throughout the world is towards a high rate for meat compared with grain and other annual products."

BURNED POWDER.

How the Guns Use It Up in War—A Pretty Good Fight.

The bombardment of Alexandria is the largest operation of the kind known to the world. The French bombardment of Sfax extended over a longer period, and was effected by nine ironclads and five gunboats; but on no one day was anything like the same weight of metal thrown into Sfax as by the British squadron into the forts of Alexandria during the bombardment of Tuesday. There was some splendid scientific firing, and the official reports of this first practical trial in real warfare of modern fighting ships will be records of the utmost value. The first important operation of war in which the English fleet has been engaged for more than twenty-five years, and, indeed, the first occasion on which the famous British ironclads, broadside, and turret ships have been put to the test of actual fighting. Eight ironclads, supported by five gunboats, represented the effective English force. To give some idea of the ammunition expended by both squadrons, it is mentioned that the Monarch used about 200 heavy shells, of which 130 were from four 25-ton guns, and about 6,000 rounds from the machine guns, of which 3,500 were from the Nordenfledts.

Careless Cartridges.

Carson must have some reckless shooters. These two items appear in the Tribune:

"By the careless shooting of a shotgun in the hands of some unknown party near Atherton's hay-yard, a little 13-year old daughter of a Canadian Frenchman named Gibeau was quite seriously hurt this morning. Shot lodged in her hand, breast and face, causing painful wounds."

"EDITOR TRIBUNE: This morning the young girl of Mr. Charbonneau was shot by an unknown hand. She was picking flowers at the time in the garden. The left eye was badly hurt and one finger may possibly have to be amputated. How is it! An accident or a coward's action!—DR. KEARNEY."

New for Dividends.

The massive machinery at the Eureka Con. new works was put in motion Thursday. It worked very smoothly for the first trial, there being nothing out of order but what happened to be so in an altogether unimportant way, by oversight, natural in the midst of such complications. A plug or two had been left out, from which the water, under tremendous pressure, shot out with such noise and force as to make the assembled crowd fear that the whole works were going to pieces. They were quickly replaced, and afterwards there was hardly a jar at any point. It will be a week yet before the entire machinery gets under way.

The striking iron-workers continue turbulent towards non-union workmen, and a serious outbreak is feared at McKeesport, Pa.

Fawcett, the blind Postmaster-General of England, has received a letter threatening his life.

Death of an Old Comstocker.

The Chronicle says: Richard Cavanaugh, for the past 20 years employed at different mines on the Comstock, died yesterday morning of lung disease after an illness of two months. Mr. Cavanaugh has been foreman of the Caledonia and other mines on the lead, and was the first foreman under John W. Mackay. His last employment was at the Union as watchman in the changing rooms and keeper of stores. Deceased was a native of the County of Wexford, Ireland. He leaves a wife and five children.

Still Another.

C. J. Brookins tells the voters of this county that he will present his name to the Democratic County Convention for the office of County Treasurer. Mr. Brookins has lived in Reno since his infancy and has always been engaged in business. Every voter in the county knows him to be a straightforward, enterprising business man. If he is nominated he will make a strong man, and if elected he will make a faithful officer.

Venus is the evening star, and makes a lovely celestial picture. The small red star south of her is Mars, with which she was in conjunction on the 2d. GENTILES IN COMMAND.

The Greatest Victory Yet Obtained Over the Polygamists.

The Tribune telegraphed F. Shober, Acting Secretary of the Senate, for a full text to the amendment to the Sundry Civil Appropriation bill, which passed the Senate Wednesday, and secured the following reply:

The Governor of the Territory of Utah is hereby authorized to appoint officers in said Territory to fill the vacancies which may be caused by a failure to elect on the first Monday in August, 1882, in consequence of the provisions of an Act entitled "An Act to amend Section 5,803 of the Revised Statutes of the United States, in reference to bigamy and for other purposes," approved March 23, 1882, to hold their offices until their successors are elected and qualified under the provisions of said Act; provided, that the term of office of any of such officers shall not exceed eight months.

This is a complete surprise to the Mormons, as it takes from them all the county offices, and will place the Territory on an American footing. Without this amendment the law-defying polygamists would hold the offices which the Edmunds bill was intended to deprive them of. Cassidy of Nevada has charge of the bill in the House, and there is no doubt of its passage there as it came from the Senate. It is the greatest triumph yet achieved over the polygamists.
